

AWC SERIES

WOODCHIPPERS

PTO Disc Chippers

Petrol Disc Chippers

Agrifarm has been manufacturing quality Australian agricultural implements and machinery for over 20 years. With our engineering heritage and understanding of Australian conditions we are pleased to announce our new range of quality woodchipper products.

Our chipper designs come from our 20 years of practical applied experience delivering high performance products requiring minimum effort and maintenance at the right price.

Our range includes Petrol and PTO models with 7" and 9" capacity disc chippers. We use quality engines from Kohler to ensure our customers are provided the best in after sales service and support. All of our chippers are specifically designed for Australian conditions to suit brush, softwoods & hardwoods alike.

7" Capacity Disc Chippers

| Model | Configuration |
|------------|-----------------------------------|
| AWC/700PTT | <i>PTO Top Discharge T.PL</i> |
| AWC/700P | <i>Petrol 30hp Kohler Trailed</i> |

- ⇒ Compact, lightweight, easy to transport and use.
- ⇒ All of our 7" chippers have a single feed roller with hydraulic drive.
- ⇒ All petrol chippers have auto plus electronic feed control.
- ⇒ All have 360° discharge chute with adjustable end deflector.
- ⇒ 7" petrol chipper is available in rear and side feed configurations.
- ⇒ Petrol engines are Kohler 30hp 'V' Twin configuration.
- ⇒ All trailed models have single axels with alloy wheels and electric brakes as standard.
- ⇒ Approximate trailer weight is 1000kg on 7" Petrol model.

AWC/700 P

9" Capacity Disc Chipper

| Model | Configuration |
|------------|-------------------------------|
| AWC/900PTT | <i>PTO Top Discharge T.PL</i> |

- ⇒ Rugged low maintenance chippers suitable for landscaping professionals and contractors.
- ⇒ All 9" disc chippers are available in rear feed configuration only.
- ⇒ All of our 9" chippers have a single feed roller with hydraulic drive.
- ⇒ All 9" units have 360° discharge chute with adjustable end deflector.
